Our formulas rely on the rejuvenating power of herbs and other natural ingredients to promote wellness. LB advocates for holistic healing through the use of clinically studied ingredients and high quality products. We aspire to bring out beauty through a healthy body and life-style

- Our supplement formulas are based on over 200 years of traditional European Botanical Healing methods, using plants and herbs with powerful healing properties discovered by a select group of Romanian pharmacists

- The rumors about these formulas effectiveness and healing properties quickly spread to the Royal Court within the Austro-Hungarian Empire, since then the grand tradition of botanical healing has carried on

The core principle of LifeBotanica is to promote “Beauty From Within,” to Restore Your Health & Unique Lifestyle

- The Detox and Repair capacities of our products go beyond surface level to achieve ‘Beauty From Within’ – holistic healing is an essential part of wellness

- **Our Goal & Mission is to help Cleanse, Restore, Repair and Treat your body naturally**
- Real, radiant beauty is the result of a body in harmony – this means a healthy metabolism and hormone levels, with proper toxin removal, plus the benefits of a regular exercise routine
- LifeBotanica seeks to educate our customers while offering advanced nutritional support. Creating “Beauty From Within” is more than taking supplements – it’s a complete life-style improvement

LifeBotanica's first product began with a healing journey of its founder: Petronely Grindea

Over 25 years ago, Petronely began a successful career working for cosmetic giants Elizabeth Arden & Estee Lauder, running and developing their national division of spas

Unfortunately, one day while driving her young daughters to school, Petronely was involved in a serious car accident which caused her to develop severe back pain. Her doctors in the USA could not relieve her pain after several years, so Petronely journeyed back to her home country of Romania in search of a cure…

It was here at the Anna Aslan wellness spa by the Black Sea which offers unusual holistic treatments where Petronely discovered a 200-year old traditional herbal botanical formula that finally brought relief to her pain, while also making her feel great and appear more youthful

Petronely was so impressed and inspired by her results that she decided to dedicate herself to bringing this extraordinary formula to North America, quitting her cosmetic career to develop her first flagship product…
