

LifeBotanica

Age Defying: Renew & Revitalize
Youthful Cellular Energizer

What if You Could

Combat^{the} Aging Process?

“Revolutionary new product stimulates the longevity gene, literally helping you live longer”

You Don't Have to Wake Up Fearing Old Age Any Longer

LifeBotanica's Groundbreaking New Formula Combines Powerful New Antioxidants to Combat Aging Through Genetic Nutrition

- ✓ **Activates the SirT1 “Longevity Gene”**
- ✓ **Visibly Slow the Signs of Aging**
- ✓ **Promotes Cell Rejuvenation**
- ✓ **Regulates AGE Protein Development**
- ✓ **Provides Maximum Antioxidant Protection**

The astounding fact is...

You Can Protect Your Body and Brain From Age Related Decline With Age Defying...

Age Defying draws its power from a primary ingredient called **Resveratrol**.

This unique supplement has been proven in studies to enrich your daily defenses against the environmental stresses, toxins and free radicals that can cause premature aging.

Just Two Tablets Daily Provide a Cell Protecting Nutritional Shield

But How Does it Work?

Age Defying features various antioxidants that not only help reverse the signs of aging but actually also help to slow down the aging process at a biological level.

How is this Possible?

Because ours is the first product of its kind to hit the US market that directly targets the SIRT1 gene.

What is This Incredible Gene?

Also known as the 'Longevity Gene', the SIRT1 gene is the key to looking younger and living longer.

To prevent you from drowning in scientific jargon let me explain to you how the Age Defying product targets the SIRT1 Gene to reverse the signs of aging...

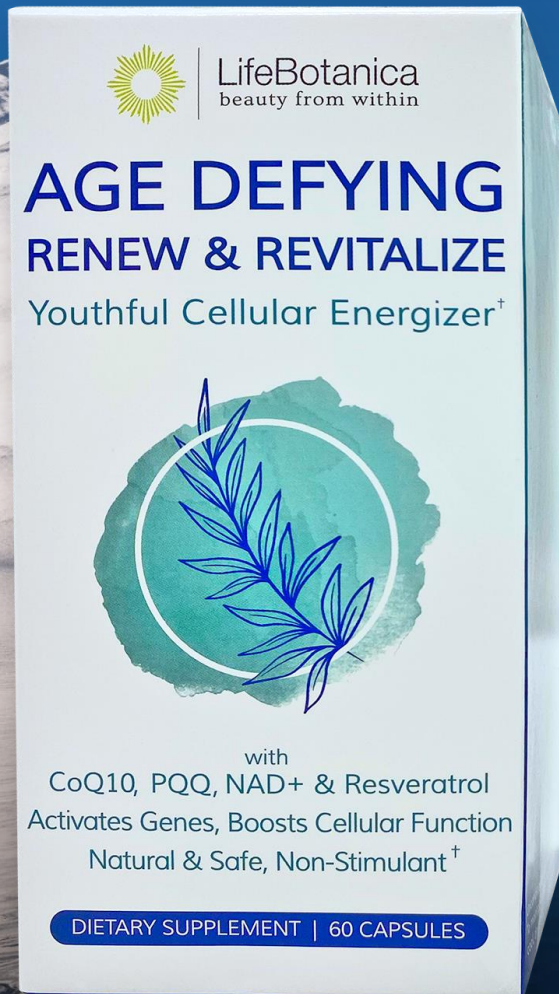

Age Defying contains **Resveratrol** which **boosts the work of the SIRT1 gene, enabling it to fight aging even more effectively** and help you live longer.

In Short, Age Defying Combines Powerful Antioxidants to Combat Aging Through Genetic Nutrition by Stimulating the Gene that Fights the Aging Process

Our ingredients combine to protect your:

Helping you look and
feel younger.

Directions: As a dietary supplement, take two (2) capsules per day with meals.

Supplement Facts

Serving Size: 2 Capsules

Servings Per Container: 30

	Amount Per Serving	%DV
Proprietary Blend	800 mg	**
Acetyl L-Carnitine HCl		
Alpha Lipoic Acid		
Resveratrol (from Polygonum Cuspidatum Root Extract)		
Coenzyme Q-10 (Ubiquinone)		
Pyrroloquinoline Quinone Disodium Salt		
Pterostilbene		
Berberine HCl (from Phellodendron Bark Extract)		
Nicotinamide Adenine Dinucleotide (NADH)		

** Daily Value (DV) not established.

Other Ingredients: Hypromellose (Capsule), Magnesium Stearate, Silicon Dioxide, Microcrystalline Cellulose

Warning: If you have a medical condition and you are on medication, please consult a physician before using this product. This product is not recommended for pregnant women and children under 14 years of age.

Does not contain: Milk, egg, fish, corn, peanuts, crustacean shellfish, soybeans, tree nuts, wheat, yeast or starch.

KEEP OUT OF REACH OF CHILDREN.

DO NOT USE IF INNER SEAL IS BROKEN OR MISSING.

No preservatives, artificial sweeteners, colors, flavors or sugars. Gluten free. Non GMO.

Manufactured in USA with Globally Sourced Ingredients. Unconditionally guaranteed for purity, potency and safety. To maintain quality, store with bottle cap tightly closed in a cool, dry place.

A powerful antioxidant formula designed to work at the genetic level to help slow down the aging process...

How Do the Anti-Oxidants Work?

Because oxidation processes in our body are linked to many diseases, antioxidant supplements are often recommended by health care practitioners. An antioxidant is a substance that neutralizes a free radical (also known as an oxidant) by donating one of its electrons, thus preventing free radicals from damaging other molecules.

Antioxidants can also work together synergistically to create enhanced health benefits, as seen in Age Defying. Some of these antioxidant components may not have relevant biological activity individually, but together, they interlink to **create a defense system that protects against disease associated with oxidative stress.**

What's Inside LifeBotanica Age Defying?

Simply take one pill when you wake up and one before bed to start immediately feeling the benefits of the revolutionary proprietary blend that includes:

Resveratrol

The key ingredient does more than stimulating the SIRT1 gene as described earlier. The “Annals of the New York Academy of Science” documented how Resveratrol exhibits antiinflammatory, anti-depressant, cholesterol lowering, anti-bacterial, anti-viral, anti-fungal, anti-brain plaque, anti-coagulant and liver detoxifying effects.

Co Q 10 & Alpha Lipoic Acid

Both components, supported by high quality research, demonstrate consistent health benefits including heart health and blood sugar management. From a beauty perspective, these enzymes neutralize free radicals and aid in healthy cell function contributing to overall anti-aging benefits that include improved gum and oral health.

Proprietary Super Fruits Blend

Our Super Fruit blend contains high ORAC fruits and dark berries with high levels of diverse phytonutrients known as polyphenols. These exhibit potent levels of anti-oxidant activity offering many health promoting effects. A significant number of studies have shown these berries are beneficial for cardiovascular health, reducing age-associated oxidative stress and improving neuronal and cognitive brain function.

Proprietary Vitamin & Mineral Blend

According to a comprehensive new report released by the Council for Responsible Nutrition (CRN) vitamins A, C and E demonstrate a quantifiable positive impact in areas ranging from strengthening the immune system to drastically reducing the risk of disease. The Journal of The American Medical Association recommends all adults should take vitamin supplements to help prevent chronic diseases.

Just imagine how great you will feel with all of these benefits without having to do anything other than take a small pill morning and evening.

AGE-DEFYING IS A UNIQUE PRODUCT ON THE MARKET.

The Science

Age Defying Has Ingredients Based On Clinical Studies.

Current research into resveratrol points to its amazing anti-aging properties; it's even been dubbed by scientists as ***The Fountain of Youth***.

This is because resveratrol is known to stimulate the SIRT1 gene, **helping to slow down the aging process**. The gene won't completely stop the aging process, but the improvement it delivers can definitely improve the quality of your life.

Imagine...

...the SIRT1 gene is a decorator painting the Golden Gate Bridge. By the time he finishes he'll need to start at the beginning again. It takes so long to paint that his work may never be done. But, if you could triple his productivity he'd get to the start again much faster and the bridge would be kept in an overall better condition on a consistent basis.

Of course he won't be able to stop the decay, but as he is working at an increased rate it will be in much better condition by the time he gets to it.

This is comparable to the stimulating effect the SIRT1 gene has on your body. You'll still get old, but at a much slower rate.

Not only does the gene fight the aging process, but it is also responsible for reducing fat stores during low calorie diets. Thus, an added benefit of this product is weight loss.

AGE DEFYING IS HELPING MANY PEOPLE...

Marta Douglas - Texas

"I already tried several products in the past but nothing seemed to give me the results I need. As with most of them, they promise you this and that, and then after spending your money, you realize that it was all just a waste. I almost gave up when I came across LifeBotanica age-defying. At first I thought it's another one of those lame products that promise a lot. I tried it anyway, and I tell you it's got to be the best thing there is. It really makes me feel revitalized and the results are visible. Those ugly uneven skin tone and dryness are starting to leave my face. Hopefully, this will continue and I'm quite positive about it. Thanks LifeBotanica."

Karl Harris - New York

"As an athlete, who maintains a healthy lifestyle, I never thought of using age-defying products—besides I'm still young. So when I heard of LifeBotanica age-defying, I did not really give it much thought at first, but when I checked for it online, it seemed a promising product and all-natural so I purchased 1 bottle. I didn't really expect much but within two weeks of use, I noticed that something good is going on inside my body. I always feel so energetic and light and I have been less worn out lately. Now, I have decided to make it part of my daily regimen. It really compliments my lifestyle's demands. You should try this too."

AGE DEFYING IS HELPING MANY PEOPLE...

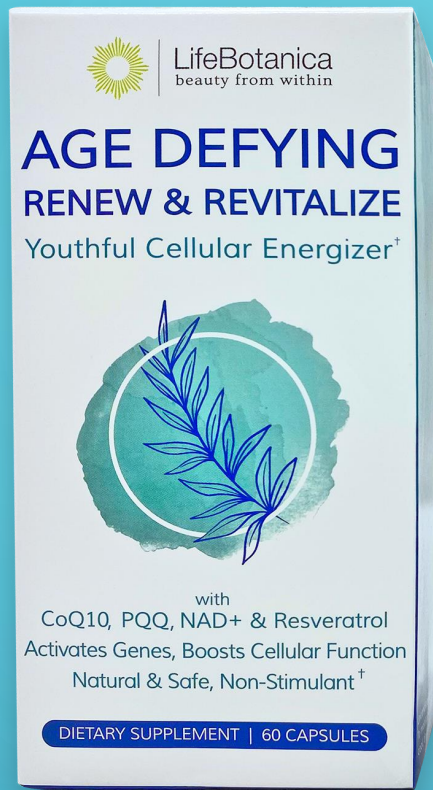

Margarita Gonzales - Washington DC

"There are more popular brands in the market today and most of them already made a name for themselves, so availing of products from a less known brand for me is scary. Who knows what kind of stuff they put in there? But when I started using LifeBotanica's age-defying, I noticed a significant improvement on my skin's texture. From dry and saggy skin, I now have a glowing and firmer skin. In addition, it also made my hair healthier since I am also suffering from progressive hair loss. I definitely recommend this product. You too can still be your best beautiful!"

Peter Johns - Los Angeles

"There are more important things to use my money for now that my kid's needs are growing, so taking a food supplement has never been a priority for me. But when my wife insisted that I should take LifeBotanica's Age-defying, I was really hesitant to include it in the budget. With her insistence, I gave in eventually and man that's got to be amazing. After using it for a few days, I'm able to keep my energy level unlike most days in the past when I always feel exhausted. I also noticed that I no longer have chest pains and aching shoulder. For all the hard-working fathers like me, you should try this too. I guarantee that there will be no regrets!"

Now There Is No Excuse For Letting Go Of Your Youth

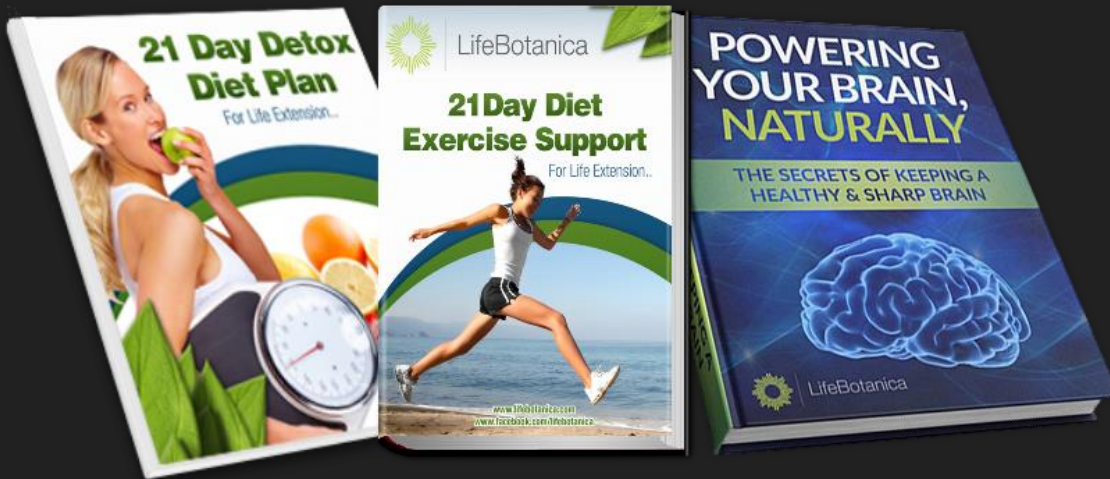

As you'll see, Age Defying is completely different from poor quality age reversing serums and antioxidant pills that promise to remove the signs of aging. It doesn't merely address the outside symptoms but it targets the inside for optimum effect.

We're sorry to break it to you, but getting older is part of life. We can't stop it completely! **But we can most definitely fight back!**

Our key ingredient **Resveratrol** sets us apart from the competition. Our formula has been specifically created to develop **beauty from within**. It slows the signs of aging by stimulating the **SIRT1 Gene** (the gene that controls aging).
